Gagan Gupta

Software Developer / Front-End Developer

gupta.gagan2002@gmail.com | +91 8247555493 | Ahmedabad | Portfolio | GitHub | LinkedIn

SUMMARY

Front-end developer with **2 years** of experience building enterprise web applications in **React and TypeScript**. Currently a **Forward Deployed Engineer**, working on-site with the client to turn requirements into working product and demos. Experienced in reusable component libraries, config-driven form engines and large multi-engineer codebases. **Finalist, Google Cloud Agentic AI Day.**

SKILLS

Core
React, TypeScript, JavaScript, HTML/CSS, Tailwind CSS, shadcn/ui

Libraries & tooling
Ant Design, RTK Query, Vite, Git/GitHub

Also used
NestJS, Node.js, Next.js, React Native, MUI, Angular, Nx, Figma, Java

EDUCATION

VIT-AP University
B.Tech, Computer Science and Engineering
2020 – 2024

Sri Chaitanya Junior College
Class XII
2018 – 2020

AI TOOLS

Cursor, Antigravity, Trae, GitHub Copilot, Stitch, Claude Code, OpenAI Codex, ChatGPT, Windsurf

WORK EXPERIENCE

Forward Deployed Engineer, CCTech 08/2026 – Present
Member of Technical Staff (04/2026 – 08/2026) · Ahmedabad, Gujarat
React, TypeScript, Tailwind CSS, shadcn/ui

- Major front-end contributor to **HOTO (Handover/Takeover)**, a plant-commissioning platform for a large renewable-energy company: **inspection checklists, punch-point resolution, multi-role approvals** and work-area-based access control.
- Extended the **Pre-Commissioning Clearance (PCC)** flow and its handover into HOTO with a PCC-CFT checklist section, O&M approve/resend actions, a remarks timeline and work-area-based PCC resolution for requests with missing linked references.
- Shipped about **228 PRs** across HOTO and PCC in a monorepo with **20+ engineers**.
- Work **on-site with the client**: gather requirements, understand pain points and build working demo UIs for proof-of-concept projects. Built a **consultant-staffing POC** (AI-assisted resume checks with human decisions, joining and site readiness, management dashboard) with a first HTML demo within **half a day** of receiving the PRD and the full version in about a day and a half.
- Made minor NestJS backend changes and bug fixes to support front-end features.

Software Engineer 1, Aumnee 12/2024 – 01/2026
Bengaluru, Karnataka
React, Ant Design, Vite, Tailwind CSS, RTK Query

- Owned end-to-end front-end development of the **Loan Origination System (LOS)** and Loan Management System (LMS) for financial institutions, **leading a team of 3 developers**.
- Contributed to a **config-driven form engine** in React that generates forms from JSON configs, with registry-driven architecture, schema-based validation (AJV), virtualized rendering and debounced validation to handle **500+ fields**.
- Led development of a core **component library with 60+ reusable UI components** using compound React patterns, standardizing design and reducing delivery time across projects.

Software Developer Intern, Aumnee 06/2024 – 12/2024
Bengaluru, Karnataka

- Worked on **Omni UI and Marvin**, a co-lending platform for banks and NBFCs, building LMS Config, LOS Config, Rules Management, Collections & Repayments and POS Error UI.
- Built responsive interfaces in React and Ant Design, added localization (i18next) and schema visualisation, and improved code quality by fixing lint issues and restructuring components.

PROJECTS

ChaiKhata · chaikhata.createlab.in
PWA for chai businesses to track customer credit and daily orders. React, Supabase.

StockPilot · stockpilot.createlab.in
Multi-tenant inventory management PWA where each business manages its own stock. React, TypeScript, Vite, Supabase.

Optron Industries · optronindustries.com
Corporate website with product catalog, services and a business inquiry flow.

Dineq · dineq.in
Dine-in app for Android, iOS and web: QR menu, table booking, ordering, waiter call, live queue. React Native, Cloudflare, Twilio OTP.

Tirumala Tech · tirumalatech.in
Interactive 3D scroll-based website for an earthing and lightning arrestor company. React, React Three Fiber.

Createlab · createlab.in
Digital agency I run, building websites, mobile apps and custom software for startups and businesses.
